Activities – Concours D'Elegance

Over twenty OVAHC attendees at 40th annual Concours: Dale Ballinger, Don & Dolores Butler, Troy & Lauren Davidson, Chad Donner and his Dad, Bernie Grabow, Bob Merten, Skip Jackson, Jake Jacobs, John & Lauren Wallace, Don Klein and his brother Dan and nephew AJ, Gayle Loos, James McCord, Kurt Niemeyer, Matt Simpson, Jeff Porada & Nancy Bacon, and Joe and Judy Yannone. There may have been more early or late arrivals not noted here. Kevin Livingston and his friend drove down from Michigan to put a nice AH in the show. Also AHCA President Gary Feldman and his friend drove down from Cleveland.

This 1950 Ferrari was on display at the Concours d'Elegance in Ault Park. It is my understanding that this body style was the inspiration for the design of the Austin Healey

Preferred parking at the Concours d'Elegance in Ault park for the Ohio Valley Austin Healey Club members.

Activities—SE Michigan drive

Southeast Michigan Austin-Healey Drive to White Cloud, Michigan

Jerry and Peggy Spurlock attended the drive to White Cloud. We had perfect weather, a bad map reading at East Liberty, a couple detours and a missed sign with a short turnaround before we left Ohio. All in all, a pleasant drive. Spent the night in Owosso, MI, and drove on to White Cloud with just one stop for directions from a nice man with plenty to talk about. "Go back this way and turn down....No, you'll get lost." "Go up here to....No, gravel road, you won't like that." "Go up to 8th. There are signs from there to The Shack." Hey, that's for us. We did get there in fine shape, but even with a sign here and there, we had to wing it.

The place is beautiful, several buildings, all dark wood with hanging baskets and flowers everywhere. A museum with cars and every appliance from the first wash board to ancient washing machines and a motor museum. Walking trail, gazebos on the water - the main lodge is on Robinson Lake; beautiful views in all directions. The food was very good and everyone had a banana split at 8:30 p.m.

The drive the next day was great. Toured the WWII submarine, Silversides, at Muskegon, on to a restaurant on a lake for lunch and stopped at a Meadery (mead as in Merry Old England) on the way home. Between the sub and lunch, we drove along the coast of Lake Michigan which as beautiful. We made it back to prepare for dinner,

the banana split and an evening get together on a lakeside gazebo. The drive was about 125 miles, but who's counting.

Perfect weather, the car was happy for the whole 965 mile trip, beautiful place to be and the club members are a fun group of nice people. Jim Fleischhauer put this impressive event together, including the drive. We just want to know what they have planned for the next event.

Activities Report: Springthing 2017

The group started arriving on Thursday afternoon. If it doesn't all fit in the Healey.....

Just can't resist an engine boys!

Welcome and games on Thursday night

On your own for an early morning /afternoon drive around the area. Although people enjoyed the countryside all over..Bernie, Mary Ann, Dale and Sandy went shopping along with a long back-roads drive over to Shepherdsville to a couple of outlets..then to Bardstown for lunch. This unfortunately made us late for the car show at Makers Mark, but we got plenty of pictures to enjoy.

Dinner with our OVAHC Healey group in downtown Lebanon...really tasty fare..

Awards for the car show and raffle items ended the evening on Saturday...until next year!!!

Tech Session Bob Duffey's AC

New fan mounted, new Fan Shroud fitted, new roller bearing installed in top of King Pins, condenser installed, Final consultation before adjourning, inside A/C unit mounted under dash. From Tues. June 6th.

Started the air conditioning add on to Bob's BJ7. Gayle Loos, Bob Merten, Richard Pratt, Scott Brown, and Bob Duffey with arm in traction removed radiator, fan, generator, heater fan and ducts, etc to make room for A/C parts. A lot of looking and planning went on as well as making new A/C duct adapters and installing new alternator, compressor, and brackets. In addition, tops of front suspension were taken apart to make ready for needle bearing upgrades for easier steering. We made good progress- more sessions will be needed.
